Product Description:	Quantity:	Price:	Total:
2' LED lamps for front desk area.	36	\$60	\$2,160
4' LED lamps for main working areas.	84	\$85	\$7,140
6" LED can lights for halls & office.	39	\$95	\$3,705
<p>Savings to the environment & you come from (50K -60K hours per bulb) 18-20 year life span at your average use of 8 hours a day per work week: This is a low maintenance & cost equation as you will not be repetitively paying for the changing out of bulbs or ballasts as they dissipate, strobe, & give out over the years. The Light Emitting Diode (LED) burns much cooler & with no ballast taking additional energy & producing more heat your cooling system will not have to work as hard during cooling season—this is about 70% of the year. This is all in addition to the wattage saving table that puts a figure on your 75-85% in wattage savings monthly over the existing bulbs you are now using.</p>			
Total:			\$13,005.00
Shipping Cost:			\$279.00
Labor to remove & replace existing lamps & install new LED's:			\$556.50
Proper disposal of existing Mercury lamps to Hazardous Waste Site. (We will make sure of this for no charge.)			
Grand Total:			\$13,840.00
