

60% Water Savings

Venturi Vacuum flow technology allows you to save water without sacrificing performance.

.895 Gallon Per Minute

Lavatory Basin faucets flow at 2.2 gallons per minute while the ecoTap faucet using patented Venturi Flow technology runs at only .895 gallons per minute while still giving a great flow. The force of the vacuum flow booster increases the stream flow impact intensity by 2.5 X over conventional flow streams, resulting in a powerful stream of water while using only .895 gallons per minute.

Includes Lifetime Warranty.
