

Caroma Toilets

	Features	Benefits
Performance	Dual-Flush (.8 g. for Liquid, 1.6 g. for Solid)	40% water savings over 1.6 g. flush Contributes to LEED credit WE 3.1 or 3.2
	Wash-down flush technology	More efficient use of flushing water than standard siphonic toilets which increases flushing power
	4" wide trapway and reduced trap length	Less clogging than industry standard 1.5" - 2.5" trapway*
Installation & Maintenance	Drop-down and standard installation	Easy installation on any flooring*
	Adjustable collar (for 270 Bowl option)	Fits 10" and 12" rough-in
	Flapperless, plunger style flushing system	Fewer leaks and hang-ups
	Snap in-out flush valve	Easy replacement
General	Well established Australian company (60 yrs. experience and development), 90% market share of Australia.	Unbeatable prices Multiple styles Industry leading technology (inventors of the dual-flush toilet)
	More toilets on EPA's list of Water Sense toilets than any other manufacturer.	Recognizes Caroma as industry leader and certifies the high performance and efficiency of their toilets.
	Matching toilet and sink styles	Creates uniform look and increased aesthetic appeal

*Most common complaint regarding Toto Aquia, our largest competitor, is the difficulty of installation especially on concrete and tile flooring. Also, Toto's trapway is only 2 1/8" which results in a higher clogging potential, and Toto doesn't have a com
